

README FILE FOR GAME HUB

Game Hub - Ultimate Collection

Welcome!

Welcome to **Game Hub** an exciting collection of interactive console games bundled into one project. Explore different worlds, test your skills and have loads of fun all from one place!

☐ Games Included

1. Quiz Game

Challenge yourself with general knowledge questions. Answer correctly, earn points and get your final performance reviewed at the end!

2. Number Guessing Game

Set your range and try to guess the secret number! Receive hints like "too high" or "too low" after each attempt.

3. Rock, Paper, Scissors

Play the classic game against a computer opponent. Track your wins and see if you can beat the CPU in multiple rounds!

4. Adventure Story Game

Choose your path in a mini text adventure. Make decisions wisely to reach your destination safely or face some hilarious (and dangerous) outcomes.

How to Start Playing

1. Open your terminal or command prompt.
2. Navigate to the folder where you saved the project file.
3. Run the following command:

```
python game_hub.py
```

4. The Main Menu will appear.
 5. Select a game by typing the number of your choice.
 6. Follow the instructions on the screen to play.
-

Features

- Simple and user-friendly menu system
 - Fun quiz with instant feedback
 - Random number generation for dynamic gameplay
 - CPU opponent in Rock, Paper, Scissors
 - Multiple endings in the Adventure Game
 - Encouraging and funny messages
 - Error handling for invalid inputs
 - Play as many games as you want without restarting the program
-

Requirements

- Python 3.x installed
 - Access to a console/terminal
 - Basic familiarity with running Python scripts
-

Installation Instructions

1. Download or copy the Python code into a file named **game_hub.py**.
2. Ensure you have Python installed. You can check by running:

python --version

3. Open your terminal or command prompt.
4. Navigate to the location where **game_hub.py** is saved.
5. Launch the game by typing:

python game_hub.py

Tips

- Always read the instructions carefully at each step.
- In Number Guessing, you can type **QQ** anytime to quit the game.
- In Rock, Paper, Scissors, use **Q** to quit gracefully.

- In Adventure Game, choose your actions wisely - they determine your fate!
- If you get an invalid input message, simply try again.

Created by a passionate developer who believes learning is best when combined with fun! 🎮

Final Note

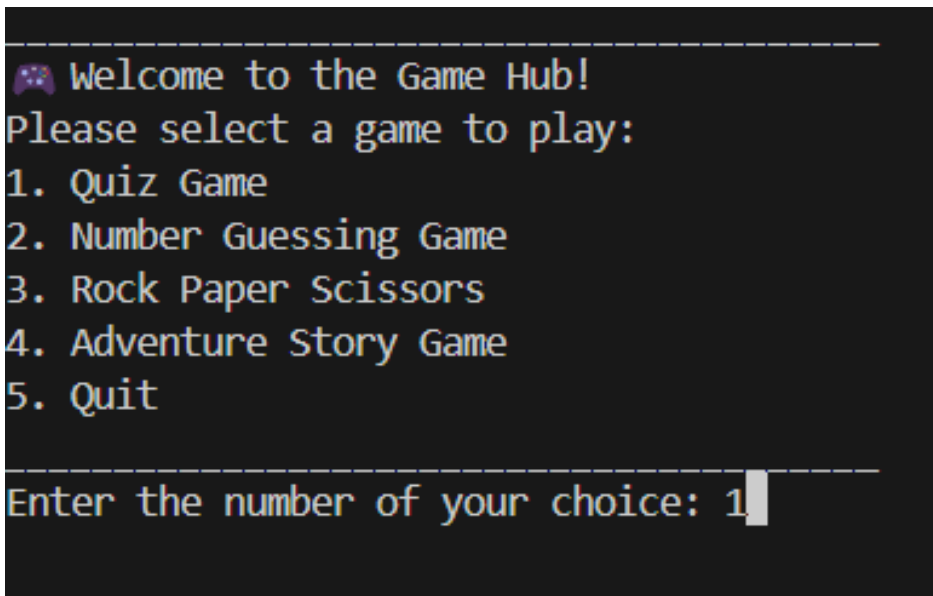

Thank you for playing! Your feedback and ideas are always welcome. Keep coding, keep learning and most importantly keep having fun! 🎮🌟

Improvements and Personal Touch

This project is a combination of several small games that I individually customized and developed. I merged them into a single interactive hub and made various improvements to the structure, gameplay flow and user experience. I used a basic programming structure (functions, loops, conditionals) and enhanced it to make the games feel more polished, user-friendly and fun to play!

Enter the number of your choice: 1

🎮 Welcome to the Quiz Game!
Do you want to play? (yes/no): Yes
What is the capital of France? Paris
✅ Correct!

What does CPU stand for? Central processing unit
✅ Correct!

What does RAM stand for? Random access memory
✅ Correct!

What does ROM stand for? Read only memory
✅ Correct!

Which planet is known as the Red Planet? Mars
✅ Correct!

What is H2O commonly known as? Water
✅ Correct!

Who wrote 'Harry Potter'? JK.Hwroling
❌ Incorrect! The correct answer was J.K. Rowling.

=====
🎉 You got 6 out of 7 questions correct!
📊 Your score: 85.71%
=====
👏 Great job! You really know your stuff!
Thanks for playing! 🎮
```

Game Two

```
-----
Enter the number of your choice: 2
=====
🎮 Welcome to the Number Guessing Game!
=====
🔢 Type the maximum number for the guessing range: 10
😬 Make a guess or type 'QQ' to quit: 21
📧 Too high! Try a smaller number.
😬 Make a guess or type 'QQ' to quit: 22
📧 Too high! Try a smaller number.
😬 Make a guess or type 'QQ' to quit: 20
📧 Too high! Try a smaller number.
😬 Make a guess or type 'QQ' to quit: 12
📧 Too high! Try a smaller number.
😬 Make a guess or type 'QQ' to quit: 14
📧 Too high! Try a smaller number.
😬 Make a guess or type 'QQ' to quit: 13
📧 Too high! Try a smaller number.
😬 Make a guess or type 'QQ' to quit: 5
📧 Too low! Try a bigger number.
😬 Make a guess or type 'QQ' to quit: 10
📧 Too high! Try a smaller number.
😬 Make a guess or type 'QQ' to quit: qq
👋 You exited the game. See you next time!
Thanks for playing! 🎮

Game Three

```
-----
Enter the number of your choice: 3
=====
🗺️✂️ Welcome to Rock, Paper, Scissors!
=====

👉 Type Rock/Paper/Scissors or Q to quit: rock
🤖 CPU picked Scissors.
🎉 You won this round!

👉 Type Rock/Paper/Scissors or Q to quit: paper
🤖 CPU picked Rock.
🎉 You won this round!

👉 Type Rock/Paper/Scissors or Q to quit: paper
🤖 CPU picked Rock.
🎉 You won this round!

👉 Type Rock/Paper/Scissors or Q to quit: q

👉 Exiting game...

❏ Final Results:
🏆 You won 3 times.
🤖 CPU won 0 times.
Thanks for playing! 🎮
```

Game four

```
-----
Enter the number of your choice: 4
What is your name? Tjkiller
Welcome to the adventure, Tjkiller! 🚀 Let's get you to school... if you survive 😊.
You step outside your house. Do you go 'left' towards the woods 🌲 or 'right' towards the busy road 🚗? right
You walk towards the busy road, cars zooming past! 🚗🚗
Do you 'wait' for the pedestrian light 🚦 or 'run' across quickly? wait
You waited responsibly and crossed safely! 🙌
You see an ice cream truck 🍦. Buy some 'icecream' or keep 'walking' to school? walking
You march like a champion straight into school! 🏆 Good job!

Thanks for playing, Tjkiller! 🎉
